PROFESSIONAL EXPERIENCE

Vistaprint, https://www.vistaprint.com
Senior Software Engineer – Tunis, Tunisia – (full remote)   *February 2019–Present*

- Assisted junior developers and implemented multiple feature-rich releases for our supply chain online business.
- Successfully led the migration of our web application from .Net framework to .Net core / ReactJS, resulting in increased performance by over 100%.
- Assisted in designing and extending our micro-service architecture resulting in fewer dependencies and 50% fast deployment.
- Collaborated with the team and the product owner to create and assign tickets for each sprint.
- Successfully reduced manual tasks for suppliers and plant users, saving the company +5k monthly.
- Assessed interviewing candidates (technical and behaviour interviews).

Junior Software Engineer – (On site)   *February 2018–February 2019*

- Completed assigned tasks within deadlines and demonstrated willingness to learn new technologies.
- Enhanced the UI layout and made the web portal fully responsive, increasing client usage by 150%.
- Actively participated in Agile sprint planning, stand-ups, and retrospectives.

AllAboutOnline
Web developer – Gloucester, United Kingdom – (On site)   *Mars 2015–February 2017*
